The Great Family

Let there be no doubt among any of us that the movement of American Nazism is alive and well as never before. That it is being reborn at this moment. That the sense of community - of the Great Family - has never been stronger.

Thanks to the steadfastness and the bold, dedicated efforts of a handful of devoted comrades, what was born as - and what will always be known to the public and to history as - the American Nazi Party has never known a time of greater promise.

The Great Family is made up of those who have interlocked inseparably their own fates and fortunes with the magnificent tradition begun nearly twenty years ago by George Lincoln Rockwell. The Great Family continues to thrive and prosper on Rockwell and his unique creation. That creation was the first and only successful synthesis of the best of the Old World and the New, of Europe and the United States: American Nazism.

The Great Family has descended in a line unbroken of those devoted ones who have constantly been on the scene and who have carried over from one crucial phase of the A.N.P. into the next and directly up to the present. Always the hardest of the hard-line; forever uncompromising in their loyalty to the Swastika; rejecting all imitators; a comradeship; a brotherhood; the Great Family; the American Nazis!

Those who hold any real claim to the future; those who have perennially led the fight against the enemy - NOT the discussion of ideals, but the ATTACK upon the PHYSICAL BODY of the enemy in the street! Those who have ranked highest on the enemy's list of most serious threats; those who have regularly withstood attacks from both Left and Right and who have consistently emerged strengthened.

Those who alone have the power to capture the imaginations and the hearts of

their people; those who are alone able to look history and the future straight in the face without flinching; those who possess the strongest, most direct, positive and uncluttered reputation and program; and those who alone have demonstrated the sacrifices and possess the martyrs which are the only true marks of greatness and timelessness in a movement.

Never be deceived by superficial changes in our makeup. All the original, key elements are still there - plus more. We possess everything we have ever known - and more. Today we are the only REAL revolutionaries! The beauty of all this is that it is still building. The last step of this tremendous change will be anti-climactic.

We today know a unity and an openness never experienced before - and it grows. All inner-hostilities and old scores, so divisive in the past, have finally come to focus on one primary traitor and a tiny band of accomplices. The purging and making whole again of the movement will be the final step in the current regenerative phase. The most dramatic moment will have come when we all are gathered together again at the spiritual center of American Nazism: Arlington, Virginia, when it has been delivered from the grip of the traitors of the movement.

This final step, signalling our willingness and capability to ruthlessly clean our own house, will also signal the actual beginning of the real fight: The fight which will only end in victory or death with the real enemy. We must and we will prove ourselves worthy and able to assume history's highest honor as those who initiate this, the last round of the eternal fight.

Only one danger exists which can conceivably threaten or hinder us. It is against this danger that we must concentrate all our alertness and instantaneous response.

The danger is compromise. It takes a number of forms: One of these is absorption, even partially, into any other coalition or reactionary guise resulting in loss of identity and integrity; The threat of INVADING IMPOSTERS. Those seeking to rival us but who have not graduated from the same school as we and who cannot share in our marvelous and exclusive lineage; The threat of internal poisoning, of any incursion of or regression to any form of reaction or conservatism.

The three faces of this evil can often be borne by the same carrier. We must learn to recognize them INSTINCTIVELY and be prepared immediately to KILL THEM if necessary.

We can and we will kick out of our path all obstacles to the complete purging and re-unification of our movement. Let the world and all in it go by until that time - for it will be a short enough time. If the world has a future, it is OUR future. So let us clean our own house while girding ourselves to external assaults. This - ahead of everything else. Once having accomplished that, NOTHING CAN STOP US!

This country and the world are fast heading toward the ultimate revolution, the complete and total revolution. We are honored to be alive for this moment. The proof and confirmation of its approach after so many dark and anxious years can be seen in the sudden spurt of life and rapid motions now taking place in the world of the imitators and profiteers who greatly outnumber us.

But it is inconceivable, it is a PHYSICAL IMPOSSIBILITY, that any but the most radical shall achieve success in this, the most radical of all the earth's upheavals. Still, they pretend otherwise and would like to see us become discouraged and fall subservient to them. But they overlook the deciding factor of the issue. They overlook it because they have no concept of it. How can they grasp the greatest lesson of the greatest man this country has ever produced when all they have done has been to attempt to bury the

very memory of that man?

Rockwell told us to TAKE ACTION!
Nothing counts but PHYSICAL ACTION!!
TAKE TO THE STREETS! KILL YOUR ENEMIES!

Members of the Great Family, the American Nazis, must each recognize that those who are unaware of us do not matter, that those who choose to disregard us commit folly, and that those who seek to supplant us invite disaster.

Comrades, it is time to assert ourselves, to organize into armies. We must become the iron fist that will answer all treason within and silence all mockery without. We must make it known and acknowledged that the American Nazis will never succumb to the fate of any lesser group, that we will return stronger every time, that we will overtake all others.

In reassuming leadership of this struggle, we must never forget the filthy smirks on the faces of those enemies and vultures who hovered about during the recent times of our greatest misfortunes when it appeared that we might dissipate and die.

We have no allies but ourselves in the end. We can depend upon no one but ourselves. An enemy is anyone who would cast scorn and ridicule on the Swastika.

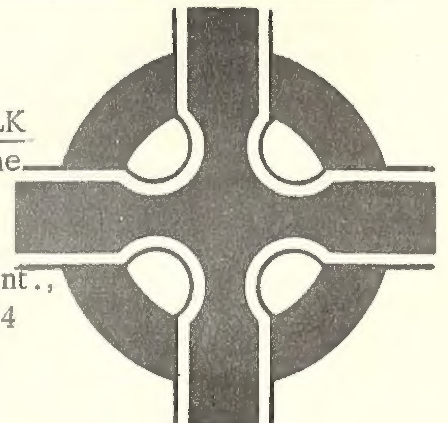

To the dismay then of ALL foes of the movement... WE ARE ALIVE AND WELL!

To all members of the Great Family, to all American Nazis... heed the call of Rockwell:

UNITE & FIGHT!

LIVING UNDERGROUND

The "McGuffey's Reader" for the Outlaw Nazi.

Financing Your Activities

By Raymond L. Chaney
N.S.L.F. *Midwestern*
Coordinator.

(Fourth in a Series)

It goes without saying that to be able to run an effective, hard-core underground operation, it not only takes manpower, determination and just plain guts, but also money - LOTS of money. This is one area where our movement has been severely lacking for so many years. In this rip-off Jew-Capitalist economy, it is hard enough just to SURVIVE individually without money, and nearly impossible to run an organization without it. And I do mean an ORGANIZATION - not just a group of people who get together once a week to pass out literature and shoot the shit when they should be out shooting the enemy.

An organization cannot be run on wishful thinking and pipe-dreams. It takes the people to get things done, sure, but to get the ball rolling they need the bread to do it with - guns, ammo, explosives and other necessary equipment does not come cheap, much less free. Since it's almost impossible to knock off the local National Guard Armory and since we're now powerless to change the economy, we're forced to scrape and save, and bleed our supporters to death to raise the money it takes to run the organization. But what little we raise from our supporters (the few who have a job) and out of our own pockets is not nearly enough. Hell, we couldn't have met even one-tenth of the expenses of bail and legal fees resulting from our members' participation in last fall's riots with the past year's contributions alone! So... How did we raise the cash?

How many times have any of you more

active National Socialists been called a "Nazi gangster" by an enemy of the race? Sound familiar? Well, why not take them up on it? Now we're not suggesting that you go right out and get into anything heavy like the Mafia or even into some super-terrorist activity like hijacking or kidnapping. You're probably not ready for something like that right now and would no doubt get all freaked out and blow the operation if you attempted it. What we're talking about is just a little minor activity to raise some bread to finance your organization. A year-round "Building Campaign" that won't make you rich but will put you in a position where you won't have to send your best supporters to the poorhouse or send out letters begging deadbeats for money.

If you're ready to get started, here's one type of activity that will get the money in and allow you to jump in the Jews' shit at the same time! (Just be careful and DON'T GET CAUGHT!)

Activity No. 1: "Ye Olde Protection Racket"

Usual target: Non-white store owners. Generally smaller stores. Modus operandi: Demands of periodic payment of money (cash only, no credit!) based upon amount of store business. Failure of payment could result in burning of store or death of owner.

Activity No. 2: "Loan-Shark Operation"

A favorite of the Jews! Practiced most commonly on niggers, junkies and others really hard-up for bread. An outrageous rate of interest is charged for small loans. Debts sometimes settled in exchange for criminal deeds. Failure sometimes meets

with beatings or death.

Activity No. 3: "Bookie Operations"

Including numbers rackets, illegal gambling, etc. (too numerous to mention) can be learned by reading and studying any one of a number of books available on the subject.

Activity No. 4: "False Identifications"

Re-read the LIVING UNDERGROUND chapters dealing with false I.D.s and their use and creation. Rip-off travelers checks, food stamps for re-sale. TVs, stereos, etc. for re-sale.

Activity No. 5: "Torpedoing"

Re-read the LIVING UNDERGROUND chapter on killing. People have been known in the past to have hired themselves out as professional hit-men. For those who are skilled in this field, the prospects are unlimited.

Activity No. 6: "Armed Robbery"

Liquor stores and gas stations owned by non-whites have on occasion been targets for armed robbers. Witnesses to such acts have been killed to prevent later identification to police. Even when masks have been used, witnesses have still been killed to prevent one of them from shooting the robber in his escape. Silencers have been used.

Activity No. 7: "Bunko Set-up"

Unscrupulous characters have in the past set up liberal front organizations by which they have bilked the enemy for dues and contributions afterward channeling this money into the fight.

Activity No. 8: "Burglary"

Countless instructional books can be had on the subject of how to be a successful professional burglar. A knowledge of lock picking has proven useful.

Activity No. 9: "Mad Poisoner"

We have actually heard of cases where lemonade stands have been erected selling to little sub-human, non-whites drinks at a nickle per glass and spiked with slow-acting poison.

Activity No. 10: "Out-Nigger the Niggers"

Many a lazy bum has gotten onto welfare for purely political purposes. Make the System pay for its funeral.

AS A FINAL RESORT...

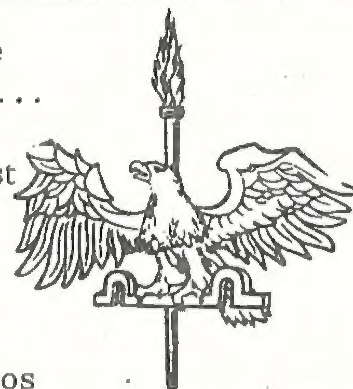

some have actually gone out and earned a decent living!

Buenos Aires Jews Live With Fear

THE WORLD

Bomb Blast in Argentina In Jewish Neighborhood

A bomb ripped through a drug store in a predominantly Jewish neighborhood of Buenos Aires yesterday, the latest of several explosions at buildings owned or occupied by Jews. No one was injured.

The U.S. Embassy was evacuated Friday night when police found and removed three packages connected by a wire in front of the embassy. Police would not say if the packages contained explosives. At least seven other bombs went off around the capital yesterday in continued violence by left and right-wing groups.

On Friday, bombs exploded in front of two synagogues and another went off in a Jewish-owned shopping mall. An explosive charge was found at a Jewish-owned newspaper building before it went off. Three weeks ago, gunmen in cars fired at eight Jewish-owned shops.

The Jewish Cultural, Educational and Recreational Association charged in a statement yesterday that a campaign against Jews was being waged in Argentina. It said a bomb damaged the association's building earlier this week. The group said there had been a recent flood of anti-Semitic literature at newsstands in the capital "which attempt to justify Nazi genocide."

The Jewish community in Argentina numbers about 600,000. It is the second largest Jewish group in the Western Hemisphere, next to that in the United States.

BUENOS AIRES — A group calling itself the Argentine National Socialist Front yesterday announced all-out war against "the Jewish plutocracy" in Argentina, blaming the Jews for the country's problems. In a letter mailed to newspapers, the group claimed responsibility for the bombing Friday of two Buenos Aires synagogues. A government spokesman condemned the organization as an "unimportant minority" trying to frighten away foreign investment.

Argentine group 'wars' on Jews

L.A. Times/Washington Post Service

BUENOS AIRES — A group calling itself the Argentine National Socialist Front this week announced all-out war against "the Jewish-Bolshevik plutocracy" in Argentina, blaming the Jews for the country's current problems.

A government spokesman condemned the previously unknown organization as an "unimportant minority" that is "trying to create fear and a fictitious state of instability in order to frighten away foreign investment."

In a letter mailed to news media, the group claimed responsibility for the bombing last Friday of two synagogues and a drugstore in the western Buenos Aires district of Villa Crespo. The development was the latest in an apparently growing trend of anti-Semitism that includes the recent appearance on newsstands of Nazi documents and literature glorifying Adolf Hitler.

Anti-Semitic Group Opens A 'War' Inside Argentina

Buenos Aires

A group calling itself the Argentine National Socialist Front yesterday announced all-out war against "the Jewish-Bolshevik plutocracy" in Argentina, blaming the Jews for the country's problems.

A government spokesman condemned the previously unknown organization as an "unimportant minority" that is "trying to create fear and fictitious state of instability in order to frighten away foreign investment."

In a letter mailed to news media, the group claimed responsibility for the bombing last Friday of two synagogues and a drug store in the western Buenos Aires district of Villa Crespo. It was the latest development in an apparently growing trend of anti-Semitism that includes the recent appearance on newsstands of Nazi documents and literature glorifying Adolf Hitler.

The letter said "diverse punitive operations against important elements of international Judaism" opened the campaign last Friday. "We thus announce those who are principally responsible for the Argentine disaster and (the country's) national disintegration," it continued.

"The war begins that will only conclude with the extermination of the Jewish-Bolshevik plutocracy," the letter

said. It was signed FNSA, the group's initials in Spanish.

Argentina's Jewish community numbers about 600,000 persons, the world's fourth largest after Israel, the United States and France. It is well integrated into Argentine life and business, widely organized and has traditionally not hesitated to take public stands on issues affecting Israel and the international Jewish community.

The current anti-Semitic activity appears to have begun with the appearance on newsstands in way of the "Library of Doctrinal Information," a series of bound reprints of the speeches of Adolf Hitler. They are distributed by Editorial Nilicia, a publishing house that also has put out anti-Semitic tracts.

The glossy publications have found their way into some public and private schools, although without government authorization. Both the Catholic church, through its monthly magazine *Criterio*, and the Association of Argentine Jewish Organizations complained to the government, asking that the material be stopped.

The government spokesman said that the requests are under study and that some decision could be expected in the next two weeks.

Profile: ALLEN VINCENT

Next Issue:

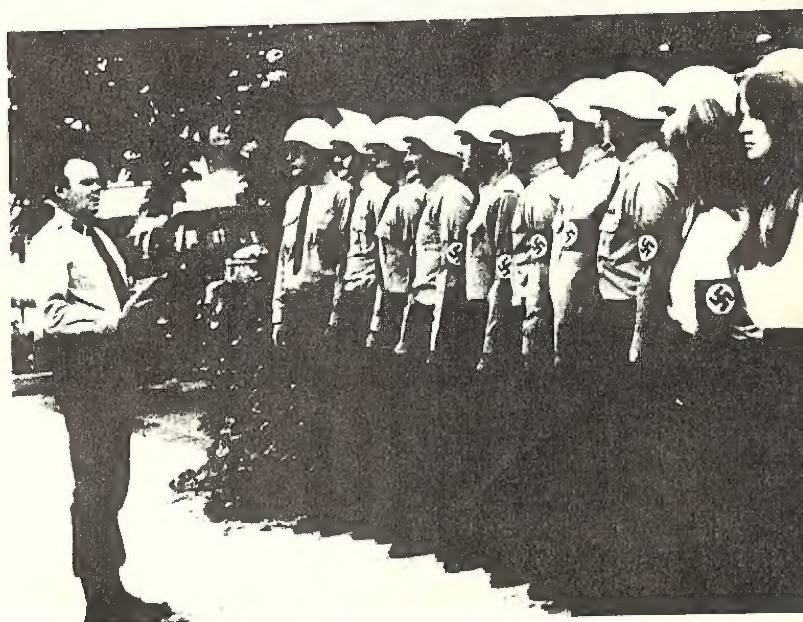

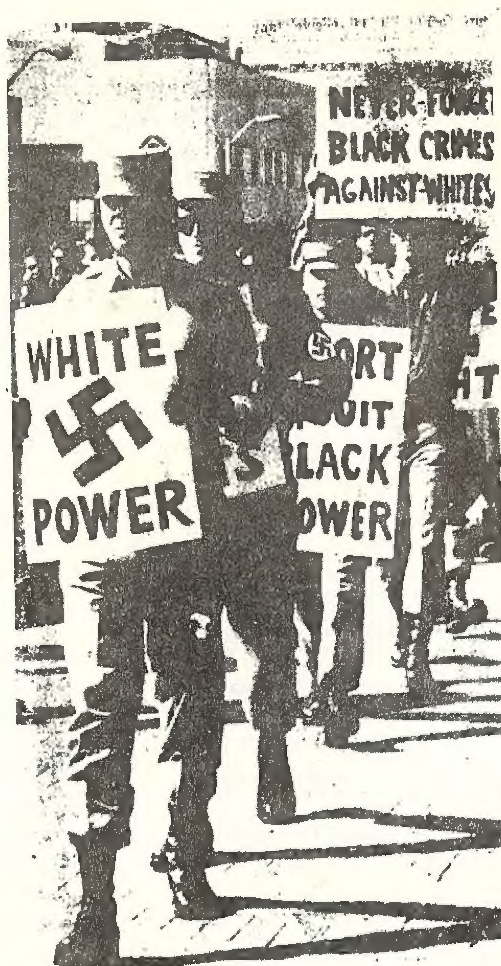

The life story of
Lt. Allen Vincent
San Francisco Nazi Leader

In the April, 1967, issue of the American Nazi Party's STORMTROOPER MAGAZINE, the above notice was given. Unfortunately, as many comrades know, 1967 was a very turbulent year for the A.N.P. and, hence, that story was not forthcoming.

This editor was a kid of fourteen when it was first announced that the Allen Vincent story was to appear in the old STORMTROOPER. When, with the next issue, it didn't appear, I was questioning and troubled and remained so. Today, it is my personal honor to be able to at last rectify that oversight, set my own mind at ease, and present to you the story of one man who, perhaps more than any other comrade alive and active in the movement today, can be called a living tradition for American Nazis... Allen Vincent.

It was through Vincent's daring and unceasing activities, often making national headlines, that some of the important seeds of the N.S.M. itself were sown twelve years ago. A bunch of kids, fancying themselves Nazis, picked up a book on American Extremists one day in 1964 and discovered in it the address of the A.N.P. Allen Vincent was responsible.

That same gang of kids immediately joined the A.N.P. as members of the National Socialist Youth Movement. And it

VINCENT and the N.S.W.W.P.

11

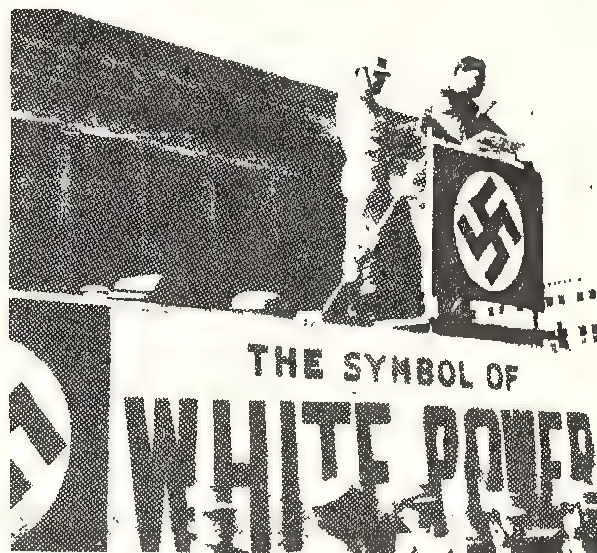

was Allen Vincent who was the National Director of the N.S.Y.M. at that time and up until 1967 when that position was filled by Robert Lloyd so that Vincent could be freed to devote his full attentions to the formidable task of organizing the San Francisco Bay Area at the expressed wish of Commander George Lincoln Rockwell.

One great highlight of that period was the riot before San Francisco City Hall. Of the riot, Vincent writes: "Several thousand Reds were massed behind the camper used by the Commander as his speaking platform, with several thousand more people, including Reds, in front of it. Following my introduction of the Commander, he appeared and the Reds went wild. The riot which erupted began to get out of control of the police who finally ordered us out of there. During the riot, one Jew dropped dead of a heart attack!"

THE ROAD UPHILL

After the assassination of Rockwell in August of 1967, Vincent left the United States for Germany. Following an extended stay in Europe, Vincent returned to his home base of San Francisco. The job was to rebuild.

Vincent with Rockwell, 1966

The official rebirth of NS activity there came on the occasion of Hitler's birthday in April of 1973. On the heels of that gutsy display by Vincent, publicity and organization followed naturally in increasing amount.

In the latter half of that year, Vincent's organization began to break the barriers of the news blackout. In October, a White Power Message became operational in San Francisco. Major demonstrations (and major riots) took place and, by December, Vincent and his National Socialists were making national headlines once again which continued on into the new year of 1974 by crashing local school integration meetings.

By the time April of 1974 came around, Vincent's operation had become a part of the town, constantly in the news. In May, it had become clear that NS operations in Southern California, at Los Angeles, were deteriorating rapidly due to the sudden removal of Joseph Tommasi by System stooges at Franklin Road who feared his growing success. The only other man in the State capable of salvaging the above-ground operations in L.A. was Vincent. He was dispatched to the scene and complete collapse was avoided.

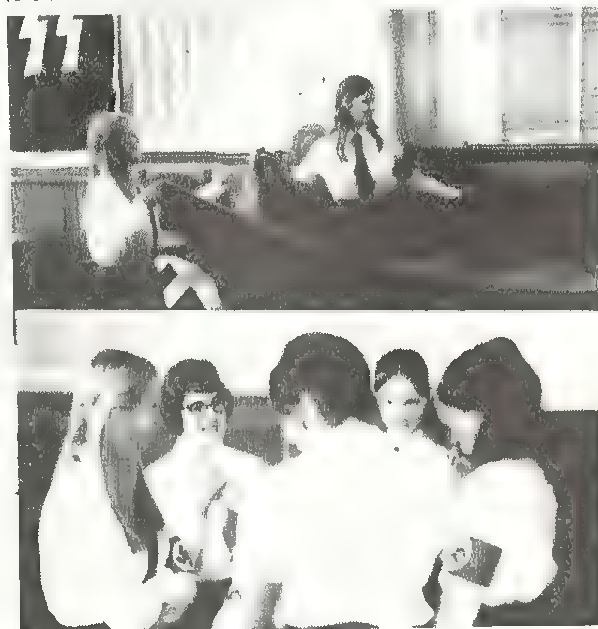

San Francisco suffered to a degree by Vincent's partial absence but, in spite of Vincent spreading himself so thin over a

huge state, real progress was resumed. The job, which had been calculated to have been rendered impossible by the removal of Tommasi, was being done again by Vincent. And so finally naked sabotage was forced to surface and identify itself.

Vincent writes of this: "In a surprise visit to one of our meetings, a character named Clifford Ward showed up with a letter from Franklin Road... he was to take over the meeting and everything else. Ward destroyed everything in ten minutes: insulting all the people in the room, calling them names. Many of those people had been in the movement for years and had sacrificed everything humanly possible. Most of them never came back to the Party after this nightmare.

"I knew then that Koehl was either insane or an agent. But I decided to stay in the Party and show him up."

Vincent returned to San Francisco leaving as the only hope for Los Angeles the newly created N.S.L.F. of Tommasi. He kept his unit there growing until April 20th, this year. Franklin Road agents were sent in to destroy his own meeting held on Hitler's birthday. Vincent writes: "The two were thrown out of the hall. Needless to say, we have formed a new Party... the National Socialist White Workers' Party."

The greatest significance of this move is that, with the creation of the N.S.W.W.P., and the independence of NS organizing in San Francisco, the full momentum and weight shifted decisively over to those seriously engaged in bringing about a National Socialist revolution and away from the forces of reaction and stagnation.

We do not pretend that this should pass for anything remotely approaching the complete Allen Vincent story. This serves merely as something long overdue not only to Vincent but to all of you who may sometimes become downhearted and feel discouraged, lost and without leadership. New leaders continue to emerge. But many of the old, original ones are still there, and Allen Vincent is at the head of these.

The N.S.M. joins with the N.S.W.W.P. in repeating to you our common pledge: WE WILL NEVER BETRAY YOU!

This time, comrades, do not fail your true leaders!

ACTION REPORT

DEATH OF TOMMASI COMMEMORATED

On August 15th, the first anniversary of the death of our comrade, Joe Tommasi, a formal commemoration was convened in Cincinnati under the direction of N.S.M. Chairman, Robert Brannen.

Brannen was quick to point out in his remarks that National Socialists had not come to gather there to mourn Tommasi but to take that moment to reflect upon what Tommasi meant to the movement and to carefully ponder just how far our following his lessons had carried us in the past year.

As Tommasi's comrades, we rededicate ourselves to his teachings and pledge to his memory utter and complete vengeance against all those implicated in his murder right down to the most passive participant.

N.S.M. & A.W.N.P. CONFER ON WC STRATEGY

Representatives of the American White Nationalist Party and the National Socialist Movement met in Columbus, Ohio, on August 21st to discuss a number of topics of importance to be taken up formally at the forthcoming WC Congress in Chicago.

To everyone's pleasure and satisfaction, the N.S.M. is able to announce that the possibility of an expected filibuster on the matter of how to handle the NUMBER ONE problem of all National Socialists was settled in an agreement fully acceptable to both NS and non-NS factions of the WC.

DON ANDREWS FREED!

Following the arrest of Western Guard Party leader, Don Andrews, on July 19th, announced in the last issue of the NATIONAL SOCIALIST, Andrews has been released on bail along with Dawyd Zarytshansky.

The "catch" to this release was the

demand that Andrews formally resign from the W.G.P. We are certain that all NS comrades will recognize this as an expedient move to have been taken under the harsh circumstances.

In the absence of Mr. Andrews, the acting head of the W.G.P. is Dr. George Zapparoli. We wish Mr. Andrews all the best of luck and we will give to Dr. Zapparoli all of our support.

FBI RAIDS TOLEDO N.S.M.!

On August 6th, agents of the FBI raided the home of Comrade Phillip McDaniel. Acting on the pretext of a search for "illegal weapons" (which, incidentally, were not found), these agents ransacked the McDaniel home.

During the invasion, agents were asking McDaniel questions about the alliance between the N.S.M. and the N.S.L.F., demanding information about NS leaders around the country (including the martyred Joe Tommasi), and expressing an interest in what the movement might have in store for whom they called, "Waterboy Koehl".

Questions were met with silence and contempt. All NS material was however confiscated. In spite of this, movement activity goes on. Soon after the raid, confiscated materials were recovered.

NS comrades spit on such quasi-terror tactics. They think then laugh... Why,

Stars and swastikas forever

by Rick Brand

Most people would probably say Nazism is something that died 30 years ago in a Berlin bunker. Albert Brinkmann, a would-be candidate for the first State Senate district claims rule by swastika is still the "wave of the future."

"I'd say we're about 50 years ahead of our time," said 51 year old Brinkmann, who speaks with a noticeable German accent. "If Nazism was an idea that was meant to die, I wouldn't be here today."

Brinkmann, a Centereach resident, is commander of the eastern seaboard unit of the American National Socialist Party which is headquartered these days in Ohio.

80 diehards

Although party officials are reticent about giving out membership figures, Brinkmann indicated there are about 80 diehard members of the party on Long Island and another 300 who are sometimes members that attend the weekly party meetings irregularly.

If people weren't too afraid to say what they believe, Brinkmann claims the Nazis would be a major political force in the United States, especially because of recent economic conditions.

"The average American Joe," said Brinkmann, "works in a factory, belongs to the fire department, bowls and watches television. He is violently anti-black; he is anti-Semitic and he is a great patriot. Although he feels that way and he says we have to do this and this and this, he is too afraid to speak out except in the privacy of his own toilet."

Hitler youth

Unlike most American Nazis, Brinkmann came to his political beliefs in his youth as a member of the Young People (Joung Volk) and later the Hitler Youth in Austria where he was born of German parents.

"Even then, I believed their philosophy of racial purity was absolutely right," said the Nazi leader.

At 18, he became a member of the German Army as a translator and in the final days of the war while serving in Hungary, he became a member of an SS division.

He became a prisoner of war when Germany surrendered, but throughout his year and a half as a prisoner and even later for the occupation forces, he served almost continuously as an English translator.

While working as a translator, Brinkmann studied electrical engineering at night and came to the United States under the sponsorship of an American soldier in 1953. He first worked in the Midwest in the sixties and until 1970 worked for Grumman Aerospace here on Long Island.

Calls White Power

When he left Germany, his Nazi activities were completely dormant, until he visited Washington D.C. in 1962. "I was in a motel and quite by accident there was a slip of paper which said White Power--If you want more information call such and such a number."

He called the number and visited the then Virginia headquarters of the American Nazi Party headed by

Nazis Baglio and Brinkmann discuss party matters.

George Lincoln Rockwell. Brinkmann has been heavily involved in party activities ever since.

Brinkmann has become more heavily involved in the party politics, since he was involved in a car accident and retired from Grumman on a disability which forces him to use a cane.

"I'm pro-white, but it doesn't necessarily mean I'm against blacks and Jews," he said.

Stanley Baglio, 34, Brinkmann's top aide, defended the need for strong shocking statements: "It's like the movie Jaws. If they made a movie about a flounder, no one would go to see it."

Anti-Semitic material

While some of the material in those newsletters would be considered to be anti-Semitic or anti-black, Brinkmann claims he has no personal animosity towards those groups.

He not only is responsible for the weekly meetings of the group but puts out a periodic newsletter called 'the N S News,' which comes out every two weeks or so.

"People see it as hate literature, but it's just our way of attracting attention," he said.

Brinkmann actually sees Nazis as more peaceful than most other "radical ideologies."

'We're nice'

"You don't see us hijacking planes, or kidnapping people or blowing up buildings. We're nice guys," said Brinkmann. Of past atrocities, against the Jews in particular, Brinkmann claims the number sent to execution is over stated and deaths are to be expected in war.

"Sometimes some people may have taken programs a step too far," said the Nazi.

While Nazis on Long Island are still small in number, Brinkmann said one of Baglio's main jobs is to keep a liaison with other groups of similar ideology, like the American Renaissance Party and the Ku Klux Klan.

Right wing coalition

"We even take support from members of Hell's Angels, but if they want to come on with us they have to shape up and scrub up," said Baglio.

Brinkmann also admits the exotic appeal of swastikas, brown shirts and uniforms, attracts people to the Nazis. "It's a fact, if you opened up a World War II souvenir store in Selden with German equipment, you couldn't get in the door, it would be so crowded," he said.

"Many people have a love-hate relationship about Nazis," laughed Brinkmann. "There was one Jew who I worked with, who used to follow my trail like a puppy dog. He hated me but was fascinated and wanted to know all about me."

Despite the Nazi claim of a growing interest in their group, Brinkmann said he doesn't expect to win the senate race even if he gets on the ballot, which at this point is unlikely. In 1974, he got 1280 signatures, well below the 2,000 needed.

"I'm running so that I can get my message across and let people have a voice at election even if it's to write my name in," he said.

'We started it.'

In the long run, Brinkmann has no fear that Nazi belief will overcome.

"The liberals of the world are destroying the world with forced busing and inter-marriage of the races. If God had wanted a coffee colored race, he would have made man that way. There are natural laws that

must be obeyed and if we don't, we'll all perish."

Believing that the white races will bring about one world some day, Brinkmann said, "they'll look back on us and say we started it."

KKK SENDS THEM A MESSAGE

In one of the greatest racist electoral victories in modern times, Imperial Wizard Dale R. Reusch garnered an incredible 103,861 primary votes in the State of West Virginia in balloting for the Democratic Vice Presidential nomination.

Dale R. Reusch

This triumph by Reusch, head of the Invisible Empire of the KKKK, represented a clear mandate from the people but, predictably, was rebuked by the rotten Democratic Party itself.

But the message is not lost upon National Socialists. Once the revolution is sparked, only God can know what horrible tidal wave of popular support will descend upon this country's tormentors.

WEST SIDE STORY

News from Cleveland's West Side has it that nigger used-car dealer, George Webb, has decided to call it quits. As reported in the last issue of the NATIONAL SOCIALIST, Webb had vowed to fight efforts of Whites

in that neighborhood to prompt his departure.

But, shortly after organized White Power was brought to bear, the nigger's resolve evaporated in the bright sunlight. One more decisive step at keeping a White neighborhood White. And it was accomplished with only very minor physical violence.

Now, it would stand to reason, that if a little physical violence and veiled terror can successfully hold the racial status quo, then a LOT of violence and NAKED terror might totally upset it in our favor.

Keep up the good work, U.W.P.P.!

ATTENTION!

The WC affiliate, American White Nationalist Party, needs contributions and large loans to obtain a meeting hall and facilities to establish for the White Confederacy a racial-nationalist headquarters and bookstore in Columbus, Ohio.

This will be the first joint venture of this nature by affiliates of the WC. The headquarters will serve as a clearinghouse for all publications of the WC, as well as a focal point for WC activities not only in the Buckeye State but the entire Mid-West, as well as an assist in recruiting new members for all groups associated with the White Confederacy.

If you want to help in this major project to advance the cause for the struggle for the liberation of White America, send your inquiries, donations or loans to:

LETTERS TO THE EDITOR

Dear NS Comrade:

Received the NATIONAL SOCIALIST today... like what you write. You and I are in good company. There are millions and millions of us around the world.

We met quite a lot of people who belonged to Franklin Road. Some good men, some not so good. When we saw all the good men leaving, we asked ourselves why. "Something's rotten in Denmark", kept running through our minds.

But we thank you a million for the NATIONAL SOCIALIST paper and we wish the N.S.M. all the success in the world.

Heil Hitler!

G.J., Ft. Lauderdale, Fla.

Mr. Mason:

I definitely like the idea of the NATIONAL SOCIALIST. Enclosed is my subscription. I've been an active part of the struggle for eight years now.

It is the day of the National Socialist. There is much more to being an NS than just a knowledge of politics because National Socialism isn't based on politics: It is a way of life based on eternal truth!

It is an eternal struggle, but we will be the victors. Can it be any other way?

Heil Hitler!

F.F., Reading, Pa.

Dear Mr. Mason:

Received some samples of the NATIONAL SOCIALIST through a friend and enjoyed reading them very much. I like the idea behind the White Confederacy.

Back in 1972 and 1973, I was the secretary of the L.A. unit of Franklin Road and I remember reading about you and Comrade Brannen in some of their bulletins.

I knew Joe Tommasi and served under him until his departure from Franklin Rd. I was sorry to hear of his death last year. After Tommasi left, I stayed on through a trying time but left because of internal

problems. I was fed up and came home.

We have been discussing starting something here and would like to see more of your literature and membership requirements. We would like to hear from the N.S.M. any suggestions on what to do. We are tired of pouring money into groups that don't seem to care.

Heil Hitler!

H.S., Wichita, Ka.

Dear Mr. Mason:

I read with pleasure the materials you sent me. As you know, I have thrown in with my good friend, Allen Vincent.

I would like to be in Chicago to meet with some comrades who are going to do something instead of become a cult. I am doing me best here eventhough Franklin Road told me I had no authority to do anything.

Now we are rolling! Enclosed you will find my address in a newspaper that interviewed me.

Let me know what we can do to help one another. Allen sends me copies from his orders of the NATIONAL SOCIALIST every month. Send me the price for five hundred each month.

White Power!

Dear Comrade:

Thank God you guys used the same format as the AKKKK's "Aryan News" and added a professional touch (plus color to boot!) And then the sudden sabotage!

Everyone I know - and that particularly goes for me - says the NS is "the cat's meow". The news of the attack leaves me sad, but it proves you guys are effective! I'll go FURTHER than to write to my people and/or that asshole in Reedy!

My September "Aryan News" is ready to go to press and I'm using your letter plus I'll put my two-cents worth in with it.

Those bastards can go piss up a f---ing rope!

White Power! 88!

Bill Sickles, Imperial Wizard

Adamic KKKK

Dear Mr. Mason:

I was told that you have had trouble with the NS magazine. Well, the devil Jew has done it again! But I am sure you'll find a way to go on with that superb magazine.

Just be careful as they'll next try and attack physically. Watch for that, please!

Heil Hitler!

C.R., San Francisco, Ca.

Dear Comrade:

God bless you for standing up for all of us. I pray that the rank and file will be able to look the devil in the face as you did and tell them to go to hell!

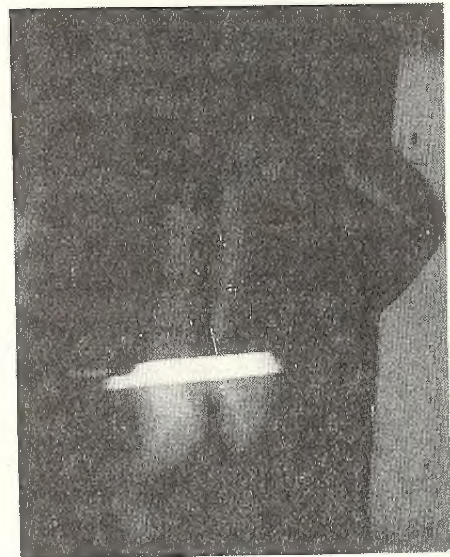

And, comrade, as long as we have leaders like Comrade Brannen, Rust, Kalembe, Collin, and Vincent, we don't need any fancy publisher!

Well, comrade, I pray God will keep a safe hand on you. Keep me informed!

Comrade in arms,

W.T., Jefferson City, Mo.

Where are they...
NOW?

The following heart-rending message is sent out to Wayne L., last seen in the Cincinnati area, pictured above, in the earnest desire and prayer that it may somehow reach him before it is too late...

"Dear Wayne:

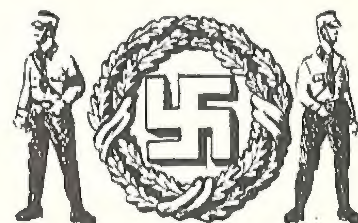

We all miss you.

No hard feelings.

But please return the panty-hose. They belong to my wife.

ROCKWELL HALL REPORT

Monthly report and official news bulletin of the National Socialist Party of America, headquartered at Rockwell Hall, 2519 West 71st Street, Chicago, Ill. Telephone: 776-7787

MESSAGE from the N.S.M. CHAIRMAN

"THE PRINCIPLES OF EQUALITY CAN
LEAD EITHER TO SERVITUDE OR
FREEDOM." - De Tocqueville

The high-principled projuect of bussing
for integration as espoused by the ultra-
liberals, NAACP, Communists, Jews, labor
union chieftains, and Supreme Court judges
who think they are God, has produced exact-
ly the opposite results than those claimed
for it.

It has brought - instead of integration -
more flight to the suburbs. Choas instead
of democracy. Schools have become jungles
roamed by gangs of niggers brutalizing the
Whites, instead of improving the level of
education for all concerned. Mediocrity in
education, or worse, instead of justice as
the brutalized cry out for help from the
faculty, school board, police and even the
courts. Their consoling words are: "Tough
it out, baby! This is going to make a better
world!"

Meanwhile, the youth are taught not to
believe in anything, while their parents are
told this is the only way because the men
in the black robes say so! This was espoused
by the integrationist, Eleanor Jackson, at
a Cincinnati School Board meeting attended
by the N.S.M. At the time, she was just
in from Boston where she was being paid by
the federal government to push this same
crap there.

Until a majority of the population remem-
bers that these judges are NOT gods, but
people hired to do a certain job instead of de-
ciding how to run the country, we can ex-
pect more of the same.

Apparently at this point, the majority
of people just don't give a damn about what
happens to their children. Surely, they can
not honestly say that they didn't know what
was happening at their children's school.

And what are YOU going to do about it?

As usual, the answer probably is
nothing. But some people ARE doing some-
thing! Maybe not as "radical" as the hero,
Neal Bradley Long, of Dayton, Ohio, who
sent a federal integrationist to his just
reward - a front-row seat in hell - by
shooting him dead. But they are taking
action just the same.

But, when you come to think of it, Long
might have not been so radical after all...
It would appear that this is the only thing
the race-mixers will take for an answer.
All the picketing and boycotting in the world
at Boston and Louisville did not stop these
scum.

Think it over...
